

Hari Huggins-Shastri

Hari is a seasoned professional with 24 years experience in the management, development, implementation and operation of IT systems. He has excelled at providing cost effective and robust IT business solutions to a diverse range of organisations including Toshiba, Denso, GKN, Saudi Pharmaceutical Industries and Medical Appliances Corporation and InterPublic Group.

In addition to working in the UK and Europe he has worked offshore for a number of years, in Saudi Arabia and Papua New Guinea. Having spent a number of his early years in India, he is fluent both in spoken and written Hindi.

Hari's core competences include:

IT Management, IT Strategy Assessment and Development, Systems Development, IT Outsourcing, Start-up Operations, IT Infrastructure and Data Centre set-up and consolidation, Software evaluation and selection and Enterprise Resource Planning implementation.

Hari's industrial and market sector expertise include:

Manufacturing
Automotive
Media and communications
Pharmaceuticals
Government
Professional services (consulting)

Hari spent the early part of his career in highly technically oriented System Development roles before moving into IT Management. He has played a significant role in a number of start-ups, data centre set-up and commissioning, IT Strategy development and implementation and outsourcing and off-shoring of IT services.

Hari has a Degree in Information Technology (BSc) and is a Chartered Member of the British Computer Society (MBCS) and a Chartered IT Professional (CITP). He is also a Associate of the Chartered Management Institute (ACMI).
